

COBIT Foundations Course (COB1022)

ISACA Edmonton Chapter is pleased to offer its members and non-members a COBIT Foundations Course.

Course Description

The ISACA COBIT Foundation course addresses the benefits of a sound IT governance framework and explains how to realize effective IT governance using the COBIT best practices framework. It explains the COBIT framework using practical examples and a case-study-driven approach. It also addresses all other components of the COBIT toolkit, such as audit guidelines and management guidelines. The course helps professionals understand how to use COBIT in a logical and understandable manner and validates this knowledge in an interactive manner.

Prerequisites

There are no formal prerequisites for this course, but it is recommended that the participants have some experience in the IT governance domain.

Course Student Material

Each attendee receives a copy of the visual aids used and the reference material that can be used after completing the course. Attendees further receive the COBIT handbook, an easy to use reference guide on COBIT. It is recommended that students acquire a copy of the COBIT 4.1 publication that can be downloaded free from the ISACA Web site.

Learning Outcomes

By the end of the course, you will be able to identify:

- How IT management issues affect organizations.
- The principles of IT governance, how IT governance helps address IT management issues, and who should be responsible for IT governance.
- The need for a control framework driven by the need for IT governance.
- How COBIT meets the requirement for an IT governance framework.
- How COBIT is used with other standards and best practices.
- The COBIT framework and all the components of COBIT, which are control objectives, control practices, management guidelines, and audit guidelines.
- How to apply COBIT in a practical situation.
- The benefits of using COBIT.
- The products and support that ITGI provides.

Audience

The COBIT Foundation course and the COBIT Foundation exam are equally applicable to IT auditors, IT managers, IT quality professionals, IT leadership, IT developers, and process practitioners and managers in IT service providing firms. Anyone interested in learning more about COBIT will find value in the COBIT Foundation course and the COBIT Foundation exam.
