We are pleased to announce this fourth event of the 2009 / 2010 program for the Edmonton Chapter of the CIO Association of Canada.

The benefits of a membership of a self-managed CIOs National association across Canada, is the opportunity to draw upon the experience and knowledge at a local and national level. With the current challenges of budget cuts, staffing shortages and expectation of IT, being able to glean advice on how others are coping is invaluable.

Please join us, **seating is limited** so purchase your tickets today by contacting Cathy Basaran by email national@ciocan.ca or call 877-865-9009. We are looking forward to seeing you on February 16, 2010.

CIOCAN is the only Canadian association dedicated exclusively to Chief Information Officers and Senior IT Managers. CIOCAN provides CIOs with a forum to network, exchange information and learn from one another. "Knowledge sharing" allows CIO's to offer advice, perspectives on current problems/issues, as well as share success stories and strengths with other chapter members. The CIO Association of Canada is a young National association formed and managed by volunteer Canadian CIOs and I.T. leaders. (NOTE: vendors, suppliers, and consultants do not qualify).
